

General Contents

General scientific coordination - Prof. Marco Sala

[↗ A. PV Publish work - Introduction](#) by Arch. Antonella Trombadore - ABITA

[↗ B. Architectural Integration](#) - by Arch. Lucia Ceccherini Nelli - ABITA

1. Background, 2. PV on Buildings, 2.1 Building location and design, 2.2. Design, 3. Systems, 3.1 Building integrated ROOF Systems, 3.2 Use of the module heat, 3.3 Facades and curtain walling systems, 4. Key points

[↗ C. Issues Related to PV Installations and Introduction to the Case Studies](#) - by Arch.

Lucia Ceccherini Nelli - ABITA, Eng. Rolf. Oldach - IT Power

Issues relating to the use of PV on Buildings, 1. Planning Legislation, 2. Grid connection and surplus power 3. Optimising PV systems, 4. Standards 5. Maintenance 6. PV Building Products Cost 7. Introduction to the case studies 8. Information contained in the case studies

[↗ D. Simulations](#) - by Eng. Rolf. Oldach - IT Power
