among students, entrepreneurs and academics, enhancing knowledge and skills on technologies, innovations, entrepreneurial thinking and problem-solving skills into the farming sector. It also aims to transform the agricultural sector into a SPA-oriented system that could build an innovative ecosystem of agripreneurs and agritechnicians around agriculture and entrepreneurship. The course is divided into four areas (SPA Overview, Technologies, Social and economic aspects and entrepreneurship in agriculture), 12 lessons and 55 topics leads students on a path
