Between East and West

Transposition of Cultural Systems and Military Technology of Fortified Landscapes

Edited by Sandro Parrinello, Stefano Bertocci, Giovanni Pancani
The editors would like to thank all those who contributed with their work to the international congress and given their authorisation for publication. The editors and the organizers cannot be held responsible for either the contents or opinions expressed in these works. In addition, the authors hereby declare that the contents of this communication are original ones, or when appropriate, they have the corresponding authorisation to include, use or adapt long quotations or tables and illustrations from other works.

This is a double blind peer review publication evaluated by experts in the field of fortified landscapes and fortresses. The sources and information found within that particular work has been verified by the referee committee. The referee committee was selected by the scientific committee of the Conference among the most experts in this field; peer review referee screened the submitted articles. This process has been chosen to encourage authors to meet the accepted standards of their discipline and to prevent the dissemination of irrelevant findings or uncorrect interpretations.
